If you've fallen in love with someone
As a healthy young man should do
Don't be shy or afraid
For each little maid needs love, love
You can easily win that someone
If you listen to what I say
You can capture her quick
With one little trick, that'll get her right away.

Just give her a little kiss
A little kiss, and then a kiss
Give her a little kiss
And leave the rest to the girl

There's not a single miss
Who's likely to object to this
Give her a little kiss
And leave the rest to the girl

As soon as you're together
Get busy, never stop
Don't talk about the weather
In fact say nothing at all

Just give her a little kiss
Then a little of that, and a little of this
Then give her a little kiss
And leave the rest to the girl.

(Orchestral Interlude)

Give her a little kiss
A little kiss, and then a kiss
Give her a little kiss
And leave the rest to the girl

There's not a single miss
Who's likely to object to this
So give her a little kiss
And leave the rest to the girl

As soon as you're together
Get busy, never stop
Don't talk about the weather
In fact say nothing at all

Just give her a little weee
Then a little Woo, and a little wow
Then give her a little kiss
And leave the rest to the girl.
