(Intro):

La, la, la, la, la, la, la (4X)

(Chorus):

You were My First, my last, and my only  
Ever since you left I've been lonely  
I can't find no love in my homies  
Yooouuu allwayys was true (2X)

I knew it, ever since I started see'in ya  
A few body scars, a few misdemeanors  
You was down when nobody else was down  
Helped me stacked the pounds, kept the gat in ya  
blouse  
I admit I used to fuck around a little bit  
But I knew that you would always be my chick  
You be my shit talk, and next she be in black and blue  
It was true I always had to have you  
I can still smell the curry shrimp and rice  
You'se the only one I ever trusted with my life, shit  
I'd like to break up, to make-up, to make love  
Them was some of the best times that we ever was

Chorus - 2X

I remember them bitches they tried to hit your sister  
Both look at you and got their ass shook up  
You was crazy, I was crazier for being with you  
Everybody said I shouldn't, I didn't listen  
Stealing me outfits for birthdays and holidays  
Snatchin shit up with your purse, up at Robinson-Mays  
Cleanin the shells at Victoria Secret  
Going diamond lovey, and sell it on weekends  
You used to say never give the dick away  
And if I did me and that bitch just disappear away  
Brown Traps I love you like a brother  
Everytime when she tired she reminds me of her  
My mother, my brother I love'em to the death  
No matter what they say I wouldn't love you any less  
Uhh, Uhh, Uhh, Uhh, no matter what they say I wouldn't  
love you any less

Chorus - 2X

A hoe at 18, the 7-18  
A day M. Felicish Orlean rest in peace  
Part of my heart's gold  
It was me and you against the world baby but we  
helped our own  
Some times they went wrong some times they went  
right  
It was the petty shit the reason we fuss and fight  
We was closer, than the coast of Nosedrub  
Everybody thought they didn't know us  
I knew that you was be having my baby  
I was scared he be broke, he grow up the same way  
If it was up to me you wouldn't have to work for shit  
We can live great on the states and live mad rich  
I guess God need the soldiers in heaven  
Soldier you was and soldier forever, and ever

Chorus - 2X

Uh, uh come on baby  
Rest in Peace boo  
You know I'm out here I'm doin' the stage you know  
You still with me you know through this whole journey  
You know what I'm sayin'  
Remember when we used to have all the fights
