

Sleep "Inside The Sun"

Visit "[Inside The Sun](#)" on MotoLyrics.com

Travelling toward the atomic sky
Passing through the wall of light we fly
To the center of the sun we go
Discovering secrets no one else has known
Within the center of the galaxy
Away from Earth and all
its misery

Travelling toward the atomic sky
Passing through the wall of light we fly
Toward the center of the sun we go
Discovering secrets no one else has known
Within the center of the galaxy
Away from Earth and all
its misery
Pressing on into the burning sky
Burning spaceship it's time to die

Our ship explodes
Our work is done
We've left our lives
Inside the sun
