

## 10 Years "One More Day"

Visit "[One More Day](#)" on [MotoLyrics.com](#)

The walls are closing in around us  
We hold our silence like a gun  
Your stare is empty and a scene that keeps repeating  
And I just bite my tongue

They can't take this away, it's far from over  
We can't stay in a place we don't belong  
For one more day, I'm not afraid to fall  
For one more day, we try to save it all

Footsteps will fade away the memories  
Unload the words and breathe again  
Our eyes are focused on unexplored horizon  
At what has always been

They can't take this away, it's far from over  
We can't stay in a place we don't belong  
For one more day, I'm not afraid to fall  
For one more day, we try to save it all

I won't let you look back  
If you will help me see clearly

They can't take this away, it's far from over  
We can't stay in a place we don't belong  
For one more day, I'm not afraid to fall  
(Far from over)  
For one more day, we try to save it all  
(They can't take this away, it's far from over)  
For one more day, I'm not afraid to fall  
(We can't stay in a place we don't belong)  
For one more day, we try to save it all  
(They can't take this away, it's far from over)
