Please, for me, don't you cave in
Or lose sight, otherwise they win
Please, believe your creation
Will breathe life in due time
Otherwise they win
Confusing a ghost
For a brand new cure
You're losing control

You're wondering, once before
So clean and pure
But -----'s hard to keep
Within reach
Your celebration
Left us naked
And woke the dead
Demons come back for more
To open up the sore
Confusing a ghost
For a brand new cure
You're losing control

From victim to villain we came throwing stones
Using, abusing our own
From victim to villain we came throwing stones
Using, abusing the throne
Using, abusing our own
Using, abusing the throne
Confusing a ghost
For a brand new cure
You're losing control
