Distance and space  
Allow emotions to age, into faith  
Our bodies may end up alone  
But close

Are you there?  
Can you hear me?  
Are you there?  
Can you feel me?

Just in the way  
All your fingertips touch me  
They are healing, one day  
We'll all fall prey

Are you there?  
Can you hear me?  
Are you there?  
Can you feel me?

Waking up  
Good morning to you, my dear I'm  
Waking up  
Enduring my biggest fears of

Distance away  
A weight  
Distance away

Are you there?  
Can you hear me?  
Are you there?  
Can you feel me?

Waking up  
Good morning to you, my dear I'm  
Waking up  
Enduring my biggest fear love
