Everything is quiet  
Everything is cruel  
God, You never noticed me  
Or anything at all  
But I breathe, but I breathe

All of us are broken  
All of us are stained  
All of us are taken down  
Bought and thrown away

Can I breath?  
Can I breathe at all?  
Who are we tonight?  
Breathe at all  
Ooh you maybe right

Everything is crazy  
Everything is still  
God, You never noticed me  
Or anything at all  
But I breathe, but I breathe  
Can I breathe, can I breathe?

All the days are drawn  
On tracing paper drift  
Away, away they fall  
Breathe at all  
Ooh you maybe right

Everything is cruel  
Everything is cruel  
Everything is quiet
