

Sleeper "Ice House"

you know that iâ€™d have done it anyways
with or without
youâ€™ve heard that iâ€™ve turned both my
shoulders
many times before

and now after all those fading yesterdays
i may do it again
so if it seems a little colder
thatâ€™s because it is

make it
then unmake it
just to make it again somewhere else

theyâ€™re so fond of you
theyâ€™ll drink the water that you tread,
donâ€™t let it go to your head

youâ€™re directionless
youâ€™d only know your right from left
if it would turn a head

and iâ€™ve dined for less

i guess that when your dogs are fed,
they end up in your bed

now go make sure the dogs are fed,
and watch it go to your head
