I put my life on hold to see you die  
You saw the demons face, I watched you cry

I wanna feel you (don't you walk away from me)  
Fear

Trashed and scarred I feel inside  
Trashed and scarred please let me die  
looking for the right way out  
all I feel is trashed inside

I got no boundaries, you call me mad  
but I will show you wrong, that I'm not scared

I wanna see you (don't you look away from me)  
scared

Trashed and scarred I feel inside  
Trashed and scarred please let me die  
looking for the right way out  
all I feel is trashed inside

Trashed and scarred I feel inside  
Trashed and scarred please let me die  
looking for the right way out  
all I feel is trashed inside
