You don't understand I wanna cut your fucking throat
Leave me alone I wanna go to my private room
I don't feel any pity, I just feel alot of hate
sleep tight, say goodbye 'cause I'm on my way

Uproar, now I'm going mad
Uproar, get away I'm not so scared
Uproar, gotta blow my mind
Uproar, time to say goodbye

Take off that face of yours before I throw up in my
hand
you're just so ugly that you would never understand
Step back, turn around I'm gonna rip you apart
sleep tight, say goodbye 'cause I'm on my way

Uproar, now I'm going mad
Uproar, get away I'm not so scared
Uproar, gotta blow my mind
Uproar, time to say goodbye

Uproar, now I'm going mad
Uproar, get away I'm not so scared
Uproar, gotta blow my mind
Uproar, time to say goodbye
