

The Make Believe "Give It A Million"

Visit "[Give It A Million](#)" on MotoLyrics.com

Kiss me softly as I fall to my knees don't let go oh oh
We've always waited for this day to finally come
around
Stepping out from the crowd,
We've always waited for the day

Give it a million that's what we say
Don't stop, don't stop today
Stick to the top and well meet you half way
Don't stop don't stop oh it's getting harder not to say
were running away
Were Running away

My your heart see with you were so close we see
through don't let go oh oh
We've always waited for the day
And we feel the same way to
Understand it all for you
It getting closer day by day

Give it a million that's what we say
Don't stop, don't stop today
Stick to the top and well meet you half way
Don't stop don't stop oh it's getting harder not to say
were running away

Give it a million that's what we say
Don't stop don't stop today
Stick to the top and I will meet you half way
Don't stop don't stop Oh it's getting harder not to say
It's getting closer day by day we're running away
Running away
