Desperate bitterness tastes so good  
there's an aura that surrounds your every move  
as the jealousy fucks me

sitting here all alone I don't want to live this way  
free my soul of ridicule let it fly away

every grey every day hurts so good  
there's an eny deep inside stings like a wound  
as the melody fucks me

sitting here all alone I don't want to live this way  
free my soul of ridicule let it fly away

This is not the end

Jealousy, Jealousy  
Jealousy sits next to me  
it seizes hold of me

You've always wanted me to feel the sting of jealousy  
now the blind can see you torment me  
this captive is set free  
you've always haunted me these ghost agree  
It's hard to pull yourself up from the flames  
when you're bruning bridges to stay the same  
to escape the trap in which you've laid  
when you're the bait you'd hate to ever change

Jealousy  
Jealousy  
Jealousy

This is not the end

You've always wanted me to feel the sting of jealousy
