

## Confession, The "The Rise And Fall"

Visit "[The Rise And Fall](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Crucifix round my neck for protection  
hold it and pray as I find my direction  
I got no love for the drugs yer injectin'  
the come down come on now feel a little bit of life  
trickle out...

and I've been coming around  
cuz I've been coming down  
once lost and now I'm found  
come down come on now feel a little bit of life trickle  
out

the purest heart and a mind with some lessons  
stick to my guns in a world full of weapons  
I got no time for the void you're protectin'  
the come down come on now feel a little bit of life  
trickle out...

and I've been coming around  
cuz I've been coming down  
once lost and now I'm found  
come down come on now feel a little bit of life trickle  
out

come on highway honey and see my shining disease...  
come on my way crazy and bow before you leave...  
coming clean now see my shining disease, oh baby  
coming clean now see my fucking disease

coming clean now see my shining disease, oh baby  
coming clean now see my fucking disease

and I've been coming around  
cuz I've been coming down  
once lost and now I'm found...
