So this is how it goes  
I try and run but oh it gets so cold  
My legs they get so tired  
My heart will be the next to go

Your love will tell me this is what I've been waiting for  
You are something I know I can't ignore  
And there's no time here and resolution  
I need to feel your love I need to hear your voice  
And when my flame dies just peace around me  
'Cause this not the end,  
No this is not the end

Gravity consisted but it won't hold me back from  
finding you  
I'm so complacent but all my thoughts won't fall away  
from you

Your love will tell me this is what I've been waiting for  
You are something I know I can't ignore  
And there's no time here and resolution  
I need to feel your love I need to hear your voice  
And when my flame dies just peace around me  
'Cause this not the end,  
No this is not the end

This is my chance to put your life in your hands and just  
pray  
Your love will tell me this is what I've been waiting for  
You are something I know I can't ignore  
And there's no time here and resolution  
I need to feel your love I need to hear your voice  
And when my flame dies just peace around me  
'Cause this not the end,  
No this is not the end  
And when my flame dies just peace around me  
'Cause this not the end,  
No this is not the end
