I just hate one mistake  
Ever trap in her space  
She can steal my future  
But now we're still alive  
Just one way to run  
Don't stop me right now  
Cause I wanna sleep in a second  
For tomorrow

We wanna quit from the one who make were stuck in  
the middle  
Middle of nowhere  
Middle of nowhere

See her in a second time  
In my dream again and again  
Like a heroin in my mind  
It's killing me slowly  
I'm still confused  
With a star on my head  
It's just a little problem which can't me done  
I can't take it anymore

We wanna quit from the one who make were stuck in  
the middle  
Middle of nowhere  
Middle of nowhere
