There once was a day when I was so downhearted  
I was so deep down I started to hit the floor  
I was digging a hole in my mind and I would've been  
like it  
So the doctor said I shouldn't do that no more

Well all I wanted to be  
(All I wanted)  
Was in danger  
(Was in danger)  
And all I needed to feel  
(All I needed to feel)  
Was a little bit more  
(Was a little bit more)  
Yeah baby why do I need..  
(So why do I need..)  
A little bit more?  
Gonna fix some rhymes that reminds me  
Life is so fair  
Life is so fair

All I wanted was some danger  
All I needed was some danger

If lifes a bull you better get up and fight it  
My head was heavy I nearly fell through the floor  
I was digging a hole in my mind and I would've been  
like it  
So the doctor said I shouldn't do that no more

All I wanted to be  
(All I wanted)  
Was in danger  
(Was in danger)  
And all I needed to feel  
(All I needed to feel)  
Was a little bit more  
(Was a little bit more)  
Yeah baby why do I need..  
(So why do I need..)  
A little bit more?

Gonna fix some rhymes that remind me  
Life is so fair  
Life is so fair

All I wanted was some danger  
All I needed was some danger

Yeah the fleece and wines that remind me  
That the pain is oh, so frightening

All I wanted was some danger  
All I needed was some danger

'Cause all I wanted to be  
(All I wanted)  
Was in danger  
(Was in danger)  
And all I needed to feel  
(All I needed to feel)  
Was a little bit more  
(Was a little bit more)  
Yeah baby why do I need..  
(So why do I need..)  
A little bit more?  
Gonna fix some rhymes that reminds me  
Life is so fair  
Life is so fair

All I wanted was danger  
All I wanted was danger

Life is so fair

All I wanted was dnager  
All I needed was danger
