Anyday, your gonna to throw it all away

see you got it just throw away

now here you wind

how its coming in from all sides

you got it coming

riding in on you

this is what we should do

lets go to boy island

book a passage

for a few days in sun

waiting and watching for girls to come

waiting, watching

You know

you came up with it too long ago

see it happened

so long ago

how could you know

lets go to boy island

book a passage

for a few days in sun

waiting and watch for girls to come

waiting, watching

waiting, watching for girls to come

waiting, watching

Everyday

you've got to throw it all away

see you got it, just throw it away

that's what I might say

lets run to boy island

book a passage

for a few days in sun

waiting and watch for girls to come

waiting, watching for girls to come

waiting, watching

just like mary waits in the sun

just like mary waits in the sun

waiting, watching for girls to come

waiting, watching

Boy, oh boy...
