"Hang On"

There's peace in the valley and the scum's moving in

And I'm here in Rallee, really

But what does it matter when you're doin' well

I'm just here getting sadder, really

Hang on, hang on, brother, hang on, hang on

Hang on to your head, hang on to your heart

Hang on, hang on

There's noise from the hill side and we're all listening

In from here on the outside, really

Hang on, hang on, brother, hang on, hang on

Hang on to your head, hang on to your heart

Hang on, hang on
