

Connells, The "Much Easier"

Fell out of bed this morning, find a new face.

I never felt the morning, perfect, pure grace.

I here would ask them, there's no answer.

Safe in the searching, another chance here. (?)

Chorus:

It's much easier this way.

It's much easier just hangin' around.

It's much easier this way.

It's much easier just...

I fess out of bed this morning, to find a new face.

I never felt the morning, perfect, pure grace.

I here would ask them, there's no answer.

Safe and certain, another chance here.

(repeat chorus)
