I want a word with you 'bout your average Jimmy
He told me things that I guess I never knew
He was a bad dancer till he learned to shimmy
He was adrift till the world came into view
He had an old standby, not your average Betty
She showed me things that I guess I always knew
She was a slow burner till the work got steady
She wasn't found till the early afternoon
Hey, get me out of this some way
I wouldn't feel so inhibited
Gotta get me out of this some way
I want to see what it is they see
Stone cold yesterday
Changed her, it didn't change me
Don't it make you wonder, man
Stone cold yesterday
Changed her, it didn't change me
Don't it make you wonder, man
Hey, get me out of this some way
I wouldn't feel so inhibited
Gotta get me out of this some way

I want to see what it is they see
Stone cold yesterday
Changed her, it didn't change me
Don't it make you wonder, man
Stone cold yesterday
Changed her, it didn't change me
Don't it make you wonder, man
And I walk and I breathe
And I try, no, it didn't change me
Don't it make you wonder, man
Stone cold yesterday
Changed her, it didn't change me
Don't it make you wonder, man
