Shhh!

Was there a sound out there
You see someone who stares
A sound not recognized is getting closer
Afraid of all the threats
Observed by rats and webs
Easily scared, nobody cares for a weeper

Now whatcha gonna do?
Are they coming after you?
Sleep with one eye open
Hold your breath and cry

You've gotta come down
There's no evil in the closet
There's no evil in the dark
No monster there, it's only in your mind
You've gotta come down now
There's nothing in the silence
Empty under your bed
Shhh! Who's there?
No evil
No evil
