#### [Verse 1]

You've been gathered to this meetin' by a wolf in a  
sheep skin  
Slick talkin' heathen, even spit when I'm sleepin'  
Dope MC by day and super rapper in the evenin'  
I'm the man that your ex hails when she breathes in  
Plague is the legion that I pledge my allegiance  
We the kings in any region plus it's ass kickin' season  
Shit we lookin for a reason, last cretin caught reachin'  
Got pulled over speedin' while retreatin' from the  
beatin'  
We diamonds in the rough, packin' seats in arenas  
You rhinestones in sequins open-micin' on the weekend  
I doubt that you could test the fleet without peekin' or  
cheatin'  
We beefin' if I even think you speakin' out of sequence  
Spit fire like a demon, blessin' raps with the Deacon  
Distinguished on the mic like I'm speakin' king's  
english  
You wake up with the fever dreamin' that you can  
defeat us  
But we don't buy that shit either because seein' is  
believin'

#### [Chorus - 2X]

Whatever you throw our way, we throw right back  
Catch. Bitch, don't flinch  
Whatever you throw our way, we throw right back  
So don't you spit in the wind

#### [Verse 2]

There ain't too many who can hang, think you better,  
do your thang  
shit you threw my way came back at you like a  
boomerang  
Think I'm new to the game? This ain't a fuckin' movie  
mayne  
Shit you people do for fame, pimp yourself like Pootie  
Tang  
Ruthless with the Brooklyn slang, rollin' with the  
crooked game

Mad because we took your dame, shit we could have  
took your chain  
Now it's just a fuckin' shame, told your friends we used  
to hang  
Groupie bitches do the same, shoulda never shook  
your hand  
What the hell's it gonna take for you to get this through  
your brain?  
Couldn't get the picture, so I guess I'll just remove the  
frame  
Who's to blame? You my friend. Ain't nothin' here for  
you to gain  
Got set up to lose again, by now you should be used to  
pain  
Can't see me in raps, so in battles better use a cane  
Leave you dancin' on the train, beggin random dudes  
for change  
Frontin' like a shooter when you know you shoulda took  
the lane  
Even John Henry couldn't fuck with tracks I used to  
bang

[Chorus 2x]
