Don't always dream for what you want  
But I love to watch good dancers talk  
My heart is stronger than you all  
But I love to watch good dancers talk

The war's, the war's good, I'm so tired  
The war's, the war's good, I'm so tired

Don't always dream for what you want  
But I love to watch good dancers talk  
My heart is stronger than you all  
But I love to watch good dancers talk

The war's good, the war's good, I'm so tired  
The war's good, the war's good, I've been tired

When you think with your mind  
You've got a place to go now  
When you think with your mind  
You've got a place to go now

Don't always dream for what you want  
But I love to watch good dancers talk  
My heart is stronger than you all  
But I love to watch good dancers talk
