"What Is My Destiny"

See the reason why my life is changing. I don't want to
ever leave I just want to be here with you.

Move away see my fate, I might have to go live my life.
Nothing is the same when your here with me. What is
my destiny?

I don't want to ever leave,
But maybe it's for the better.
I know it may be hard for us,
But please don't ever forget me.

Move away and live my life.
My future is in sight.
Nothing is the same when your here with me.
What is my destiny?

Destiny falling,
Destiny is falling on me.
Destiny oh destiny,
Falling, falling.
Destiny is falling on me.

Destiny falling,
Destiny is falling on me.
Nothing is the same when your here with me.
What is my destiny?

Destiny falling
What is my destiny?
