Oh, it's the middle of March but it feels just like  
summer  
And I wouldn't call that a California bummer

Cause it's the days like these when I remember you  
most  
It's like a low pressure system coming off the coast  
The wave strikes down and I wonder just where you are

And you took me so far

Well it's the middle of the night but I can see the  
sunshine  
So I? on my mind

It's the way I feel when I've been with you  
I heard a word you say, seen what you do  
And then wondered what we've gotten ourselves into  
It goes on and on and on and on  
And you take me so far

And then I close my eyes I can see into the future  
But I'm really not sure if it's gonna include you  
Cause I know this is not what you've were hoping for  
And you've been so long staring at the door  
That I wondered just who you've been waiting for  
It goes on and on and on
