I want your love here with me  
In under all the roads  
That I haven't told  
Where did you stay when you were on your way  
And I am  
I have no where to go  
Ohhh, not in this life

Don't ever let them tell you  
That you are not that strong  
No one can tell you  
What's right or what is wrong

What did it take for you  
To be beside this world of mine  
No one can feel me  
'Cause I do exactly  
What no one can dream about  
No one can dream

Don't ever let them tell you  
That you are not that strong  
No one can tell you  
What's right or what is wrong

Don't ever let them tell you  
That you are not that strong  
No one can tell you  
What's right or what is wrong

I know I am loving you  
Everyday and all day long

I know that I am loving you  
And I am not that strong  
Ohhhh
