I'm going out tonight
Would you like to join me by my side?
I'm gonna grab a bite
Would you like to come along for the ride?

It's rare when all of us are gone.
It's rare when everybody's having fun.

Save me a seat beside you, I wanna see the movie, too.
I wanna hold your hand and show you what you mean
to me.

I guess I'm holding on too tight.
Would it hurt if I was to stand by.
So now I'll run and hide.
You were the only thing keeping me alive.

It's rare that all of us are gone.
It's so strange that everybody's having fun.

Save me a seat beside you, I wanna see the movie, too.
I wanna hold your hand and show you what you mean
to me.

I'm running all the way home it's a lonely road.
Smoking cigarettes and talking on the phone,
Trying to forget the distance that lies between us

Save me a seat beside you, I wanna see the movie, too.
I wanna hold your hand and show you what you mean
to me.
