Oo Way,
Oo Woo,
Oo Way,
Oo Woo

Your a big girl now, and responsible,
For all the things you've got and all the things you
know,
and for everything you don't well you'll find out
eventually, hey!

You think you know it all, when you really don't,
Just live the dream you dream but somehow you wont,
and your trying just too hard, you got it coming
naturally (naturally)
Its meant to be (its meant to be).
(Lachie)Baby if your down on your luck then you build it
up

(Chorus)
So if your down on your luck then you build it up,
there's only one thing to do when there's not enough,
Dont turn around now give yourself another second last
chance,
second last chance!

when your down on your luck then you build it up,
there's only one thing to do when there's not enough,
don't turn around now give yourself another chance!

Your not on your own i'm always by your side,
Just keep pushing on and keep your head held high,
Don't you throw it all away,
Relax and count from 1 to 10,
Patch it up and try again.

(Lachie)Baby if your down on your luck
if your down on your luck then you build it up!

(Chorus)
So if your down on your luck then you build it up,

there's only one thing to do when there's not enough,
Dont turn around now give yourself another second last
chance,
second last chance!

when your down your luck then you build it up,
there's only one thing to do when there's not enough,
don't turn around now give yourself another chance!

Woo oo oo yeah, baby yeah,
just give yourself another second last chance,
youll only worry with a second last chance,
you gotta gotta give yourself.....

(Chorus)

So if your down on your luck then you build it up,
there's only one thing to do when there's not enough,
Dont turn around now give yourself another second last
chance,
second last chance!

When your down on your luck then you build it up,
There's only one thing to do when there's not enough,
Don't turn around now give yourself another chance!

Give yourself another last chance, You owe it to y
