why this is i do not know
i'm here to make em bounce fo sho
i'm gonna change the way you look at me
open your eyes this is what you'll see
a crazy ass white boy with a lot of flavor
time with me you'll wanna savor
i'm not snoop dogg i'm not tyrese
i do live in a log buy i'm not obesce
what i am is what you know
definetely for sure i got that dough
to spend on henny and the crissy
drink a few 40's and get real pissy
the place we do it is 3rd hole
thats for sure we know our role

[Chorus]

whats my name i'm a tell ya now
kicking game i'm a show ya how
my name's d money and thats no lie
getting hunnies and they all fly
whats my name i'm a tell ya now
kicking game i'm a show ya how
my name's d money and thats no lie
getting hunnies and they all fly

so here i go i'm gonna lay it down
its about the one with the pink gown
god dam i hate her that stupid bitch
i wanna put her in a ditch
she tells me she wants me in her life
then she stabs me with a knife
i mean what the fuck whats the deal
i never even got to cop a feel
yo girl heres the truth i really like you
i mean what the fuck boo whatchu wanna do

sure you have a couple nice features
but one thing for sure your an unstable creature
well i'm here to tell ya thats its over
i'm gonna take a line from j hover
get your mind right mami and you can have me
otherwise many more bitches i'm gonna see

whats my name i'm a tell ya now

[Chorus]

my boy rennie drives a plymouth reliant
me him and andy play kobe bryant
my boy billy cobb drives a dodge shadow
its a decent ride but way too loud yo
my boy tj beagle boy drives the mr2
at crossgates mall we saw his black boo
my boy dan amuso drives a toyota tercel
when he hit the car his side mirror fell
now me and andy ain't got a whip
and just for that we recieve some lip
but don't worry we dish some out
and you know we always win the bout
my boy staple has the brave
and all the boys had to rave
at its amazing battling skills
get so high we can fly over hills
in a couple months we all divided
but once in a while we'll go riding
and repeat the shit we did this summer
hopefully we all get a hummer

[Chorus 2x]
