

Sleigh Bells "Demons"

Visit "[Demons](#)" on MotoLyrics.com

You drink the wise blood
They're gonna hear about it
You'll be taken down brick by brick by brick
Burn the orphanage
You're gonna pay for it
They will purify block by block by block

Chorus:
Demons, come on!
You got a vision, you're on a mission
Demons, live on!
And when I die hang me high!

They're gonna bury you
They're gonna finish
They're gonna stand 'em up six by six by six
You pull the hood back
I wanna know
Which way will the heavenly go?
Taken down, taken down, taken down, taken down
Taken down, taken down, taken down, taken down

Chorus: (x2)
Demons, come on!
You got a vision, you're on a mission
Demons, live on!
And when I die hang me high!

And you will answer to no one else but me
And you will answer to no one else but me
And you will answer to no one else but me
And you will answer to no one else but me
Taken down, Taken down.
