The nightmare lies in the mourning  
When the birds are bleeding  
And you hope the day will come  
But you're never gonna live this down

Wish it away with the blame  
You could just stop breathing now  
You didn't want it enough  
And you tap and you cut  
And you start with the heavy breathing  
You're parallel to the dark  
But they're still not leaving  
But you try and talk  
You'll do anything but you're never gonna keep it down  
Don't leave me now, don't leave me now

Chorus:  
It didn't have to be this way  
You know it didn't have to be  
But it's the end of the line  
So goodbye

Can you hear me  
Can you see me  
Well it's the end of the line  
So goodbye

Now you talk to yourself  
And you wonder why nothing ever changes  
How you're gonna fall so far so fast  
Who you gonna blame this on  
I don't care anymore in the morning  
When the birds start bleeding now  
And it's all the same

I was faced to the wall  
With the mirror crashing down  
And you stood so tall  
But you fall and you're never gonna get back up  
You didn't want it enough  
Am I central now, am I central now I was central how

Chorus:  
It didn't have to be this way  
You know it didn't have to be  
But it's the end of the line  
So goodbye

Can you hear me  
Can you see me  
Well it's the end of the line  
So goodbye

No one loves you  
Up above you  
No one hears you  
No one sees you

No one loves you  
Up above you  
No one hears you  
No one sees you

Chorus:  
It didn't have to be this way  
You know it didn't have to be  
But it's the end of the line  
So goodbye

Can you hear me  
Can you see me  
Well it's the end of the line  
So goodbye
