he clock is ticking faster.
We need to party a bit harder.
Things now are getting tougher. It's time to work it even better.

What is the time now? There's no time for looking back now because we need to start looking forward.

It's time to shut up listen.
It's time to get up and move your feet.
It's time to get up cause it's our turn dance around and feel the beat. It's time to shut up and listen.
It's time to get up and move your feet.
It's time to stand up cause it's our turn dance around and feel the beat.

Don't loose this oopurtiny because time won't repeat itself.

Look at the time now it's been awhile since we had fun like this and I can't figure it out that why are we wasting time?

This is our time.

Every second counts don't waster another minute.

Stop looking back let's make some haste cause I ain't stopping here right now. What are we doing now?
Is this the right thing to do?

Waste no time.
