

The Party Foul!

They say not to fall into this temptation
Cupid's arrow strikes me on the back again and I fall
Even more than ever before
This story begins with my finger on the trigger
Shall we play a game of roulette

Should you be the one, are you the one

Is this too much to take
I never knew I'd stand here waiting for the curtain to
fall
With this gun in hand I question
Will this show end with an applause

Which side of the barrel will you stand
When I have taken my last breath
The story ends where it begins and time will tell
Just what we did

They say only time can tell, only time can tell
Where we will go

Go
Go to the end of the road
Never let go til' you know
What's become of this story
And let it unfold
Let shit unfold

What have I become
Another one of your poisoned victims
What has become of me

Tonight is our night
So pack your bags and enjoy the ride

Now take this one step at a time
Never planned to make it out alive
Feel the want to be as one
Since we've made it out on time
Feel your body sway to the beat

No one would have pictured this to be
This final stare into the eyes
My opinion slowly will untie

They say only time can tell
Only time can tell
Where we will go
