All right let the demon speak!
A bell tolls at midnight
A summon for murder
The vultures flew high that night
Looking for murder
The winds they blew black that night
A warning from Satan
Across the seas they came in white
A sign
A rider was seen, appeared from the mist
Around his neck, a crucifix
He came with a cult, from another place
Then cursed our people, with this plague
Fuckers!
A rider was seen, appeared from the mist
Around his neck, a crucifix
He came with a cult, from another place
Then cursed our people, with this plague
Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!
But its all the same
They say were devils, sing devil sons
Were evil!
A rider was seen, appeared from the mist
Axe and shield and leathered fist
Better beware of the final attack
Better beware, the cause we are back
A rider was seen, appeared from the mist
Axe and shield and leathered fist
Better beware of the final attack
Better beware, the cause we are back
Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!

Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!
Beware the legions of Satan
Theyre ready for attack!
Theyre ready for attack!
Welcome back!
