Noise alerts, brightens the path,
Sun's in my head.
Plot vague course, deny any sense,
Roll some dices.
Amongst bright lights star paintings surround, Wash
your life out.
Sharing a bite, vanish the white,
Go without doubts.

Warmth touches down,
The things I'd lost I feel again,
It's all just coming back around,
But this is not my ground,
This shivers gold, I'm forever sold... (on this).

Sun comes around, further from town,
Found the feeling,
See planet as one, judging all that has gone, Share the
meaning.
Comfort, elation, a warming sensation,
Pain is healing.
Knowing you know when you are what you are, And you
are and you are. You
Are.

Mind moves to two, auto body cannot hide,
Will you come to?
Will you learn how not to hide?
Don't want to hide, don't want to hide.

Now all has gone,
Except the one who's the One, who's the one?
Although not much left,
Warm feeds all you need, it's the best.
Then all floats on, it's ok it's not gone,
It's focused
What waves can you make, to push paths
And move space, it's not too late?

Coz, Warmth touches down,
The things I'd lost I feel again,

It's all just coming back around,
But this is not my ground,
This shivers gold, I'm forever sold...
This shivers gold,
I'll be forever unsolved... (I am).
