"Drive To The End"

Visit "[Drive To The End](#)" on MotoLyrics.com

Our families were there
And everyone we knew
Were waiting there just to see you
I waited on the side
I could not believe
That we had made it this far
Will you ever know how much
I love you
I don't think it's possible
Will you ever know how much
You mean to me
I don't think you'll ever see
I thought I would not sound
But it wasn't me
I thought I'd know just what to do
When I fully saw your face
I knew it was to be
Together forever with me
We will be
[Chorus]
