

Slick Shoes **"Walk Out"**

You cannot break me, how far this takes me
My mind is racing as I play this song
Will You walkout? This song is played out
This thing I'm facing will not go quietly

Place to place, I see Your face
Keep me centered now
Need some sleep, Your song I keep deep within my
heart

Tomorrow's at stake
But this show won't make my love wander from my
promises
I feel better now and I will carry this song until we are
done

Place to place, I see Your face
Keep me centered now
Need some sleep, Your song I keep deep within my
heart

Home now, nothing's better
With You forever, it doesn't seem long enough
