Cause you'll be where the grass stays green
Skies clear with a chance of rain tonight
But you'll leave before it gets here
You'll stand there with your gimme gimme stare
But I know I just can't be here with you, cause I don't
need to

Turn around as the clock strikes 3
Loose your clothes and join me in my bed
You're in my head tonight
Your legs shake from the chill inside my room
But you won't bare the cold
My sheets can't keep you warm, so I'll see you around
summer

Cause you'll be where the grass stays green
Skies clear with a chance of rain tonight
But you'll leave before it gets here
You'll stand there with your gimme gimme stare
But I know I just can't be here with you, cause I don't
need to

Breathe it in now, breathe it in now
Breathe it in, take it back now
Breathe it in, take it back
x2

For the first time take this slow, stick around now
breathe it in, stick around
My sheets will keep you warm, oh they will
For the first time let me know, don't run around now
looking to find me
I'm waiting where you are, so I'll see you around
summer

Cause you'll be where the grass stays green
Skies clear with a chance of rain tonight
But you'll leave before it gets here
You'll stand there with your gimme gimme stare
But I know I just can't be here with you, cause I don't
need to

I've learned I'll never let you go, but it's so hard for me
to show
How I feel about you now
