I can get a little complicated, all worked up and so frustrated,
Hanging on to things that I should just let go,
You don't let me stay that way to long,
You make me laugh and say baby move on,
Cuz life is way too short and we're getting old

Baby you got a way, of putting a smile on my face
You can always see the silver lining,
You find the light when the sun aint shinin,
Life ain't all that bad cuz you make it good,
You know how to make me happy,
When it feels like the world is comin at me,
And things don't turn out the way I think they should,
Baby you make it good

I can get lost with things that don't matter,
But you remind me with love and laughter,
We've got everything yah we got it all, alright
I'm gonna do everything
I can to make sure you know you're a real good man,
And I'm thankful, so thankful for you

You can always see the silver lining,
You find the light when the sun aint shinin,
Life ain't all that bad cuz you make it good...
You know how to make me happy,
When it feels like the world is comin at me,
And things don't turn out the way I think they should,
Baby you make it good

You can always see the silver lining,
You find the light when the sun aint shinin,
Life ain't all that bad cuz you make it good

You know how to make me happy,
When it feels like the world is comin at me,
And things don't turn out the way I think they should
Baby you make it good
