You leave me then I fall, (I'm) I'm ready but it's so hard
My heart stays, my body wants to leave
'Cause you don't desire me
And I stay with you again
And I say to you again

But I won't see you again
Cause' you will never love me
And I break the link today
You can see I'm crying
(2x)
(Again, again...)

Today it's going to be hard, I'm leaving half my whole
heart
Your angel face I'm missing
And it's going to be hard to say that
I love you much, but I'm just pretending

But I won't see you again
And I say this once again

But I won't see you again
Cause' you will never love me
And I break the link today
You can see I'm crying
(2x)

We can first try to do it well
You can hold me you do it well
You can just try to do it well
We can first try to do it well
We can trust yeah you do it well
Now it's over all is falling here, I'm not here I'm in a
nightmare
I'm not here I'm in a nightmare

But I won't see you again (3x)
And again and again

But I won't see you again

Cause' you will never love me
And I break the link today
You can see I'm crying
