"Burn me Alive
From the Inside out
You're all I have
Don't let me down
Clutching my chest just tear it out
Useless to me

Found face down sprawled across your floor
Drink your poison but you'll have to pour your own
Hold your breath, won't care that I don't know
When you never come back home

Chorus: Burn me Alive from the Inside out
You're all i have
Don't let me down
Clutching my chest just tear it out
Useless to me

Spark my heart, take a breath and numb the pain
Into the tracks, listen, waiting for the train
Can you hear me now? My scream echos in your brain
Count the starts before they fade

Chorus

Hold me I'm bleeding
Kiss me I'm lying...in your arms

Hold me I'm bleeding
Kiss me I'm lying...in your arms

Chorus x2
