

Contingency Plan, The "Wish It Away"

Visit "[Wish It Away](#)" on MotoLyrics.com

I drag myself out of bed this morning
To see the same ugly world.
Everything we've built is crumbling,
and there's no room left in this world
I closed my eyes and wished it all away,
But nothing ever seems to change.

Not thinking, Not thinking we've destroyed everything
Not thinking, Not thinking we stole the lives of the
children
Not thinking, Not thinking we've ended this world

And i wish it all away. I wish it all away but it seems to
stay. [x2]

So i think about how we've grown and changed.
One less day left in my life.
And i think about the world we live in today.
No one even seems alive.
Let it go watch the world deteriorate.
Abuse it till we die.

Not thinking, Not thinking we've destroyed everything
Not thinking, Not thinking we stole the lives of the
children
Not thinking, Not thinking we've ended this world

And i wish it all away. I wish it all away but it seems to
stay. [x2]
