Millions of people dying in war, they just don't know  
why  
Soldiers fighting for god and country, war does make  
them high  
Nobody can do anything, 'cause nobody understands  
Troops are marching for a crazy leader, for the rules of  
their land  
If you're not a fool, a victim of insanity  
I'll tell you something, just listen to me  
We don't need the army - no, no, no  
We don't want a war - no, no, no  
Destroy your government, fight their fucking war!!!  
Government saying we need defense, but it's nothing  
less than war  
Nowhere's peace in this dirty world, they're fighting  
more and more  
War for money, war for fame, never seen a bigger  
crime  
Fighting for a crazy leader, but I don't wanna die  
If you're not a fool, a victim of insanity  
I'll tell you something, just listen to me  
We don't need the army - no, no, no  
We don't want a war - no, no, no  
Destroy your government, fight their fucking war!!!
