What in the world's come over you?
Why do you treat me like you do?
Won't you tell me when I've been wrong?
Don't you know that you're the only one?
What in the world's come over you?

What's this you heard today 'bout me
And a girl across the way?
You're not the type to carry news
'Cause what they say isn't true, true

How could you play it in, oh, so sweet?
Why did you think that I would cheat?
What in the world's come over you?

What's this you heard today 'bout me
And a girl across the way?
You're not the type to carry news
'Cause what they say isn't true, true

What in the world's come over you?
What in the world's come over you?
What in the world's come over you?
