So dough when I'm on the road you know I like to party  
I've been drinking drinks since you was drinking bodies  
Been duggin can't nobody tell em nothin  
I bet to grown man since I had to start...

In the pool full of (drink)  
Them pence of the (drink), the purple (drink)  
We pow up (drink), I'm smoking (drink)  
Cup full of (drink), I'm leanin (drink), I'm leanin

I got a pipe full of purple I'ma cruise in it  
Get it hugging on them corners like a fit it  
Sipping on that back it got me itchin  
Rolling up the stint got me looking fake busy  
Shout out to my city, I'm all about the H  
Like the ermade on her waste, little mama know my  
taste  
She been tryin sip a case I just really need a 8

I remember pen 15 dollars for an ace  
Now the shitty is out of rate  
Make my home and sin the package out of state  
On the sneak shit I'm waiting on the mill man as we  
speak  
Me and shawty sip and all got me going straight to  
sleep  
Yes I ride it me in dreams try do this every week  
Little jade with me couple straight 50's  
20s on the bottom we could clean up baby bottom  
In an hour get you shawty I bet she being naughty  
I'm bout to make you chillin powing for me

I got a swimming pool full of (drink)  
Them pence of the (drink), the purple (drink)  
We pow up (drink), I'm smoking (drink)  
Cup full of (drink), I'm leanin (drink), I'm leanin

Called in kind of sore, cup money like a sore  
Twenty as Vanilla cream, mix it with a four  
Add it money every single soda in the store  
I've been drinking for 50 days straight like is a tour  
Sipping till I snore wake up and sip some more  
Straight to the medulla I don't measure I just pour  
Dowdy in the cabin is from switches in the door  
And my mate come tomorrow you can ash it on the  
floor  
I'll be leaning like the seaside throw like her shot  
Smoking on that brand cushioning I'm bout as high as  
three time  
Best get out of my rebox, drink the beer what a be not  
I got my kicks some months ago you getting yours on  
re-stock  
My Rolex don't tic-tac, my day just as me condition  
My AP is A1, your U up got a diamond mission  
Fuck the haters and fuck the system  
All day on my hustle mission  
My eyes low and bad vision, and did I mentioned I'm  
sipping on it

I got a swimming pool full of (drink)  
Them pence of the (drink), the purple (drink)  
We pow up (drink), I'm smoking (drink)  
Cup full of (drink), I'm leanin (drink), I'm leanin
