Your eyes remain in my dreams, I'm so close but so far
away from you, take my hand with childlike faith, let
me show you how to love again

Everything hangs in the balance, so God, give me the
strength, give me the strength to shake her, from this
endless maze

Our time will never be up, so break your hourglass

Make light of it all, whatever makes me forget, that's
what she's best at, always inflicting regret

Your eyes remain in my dreams, I'm so close but so far
away from you, take my hand with childlike faith, let
me show you how to love again

Just admit it (This is not what I worked for), spill your
truths on the floor, Just admit it (Your time is running
out), you've lost touch, My nails to the ground
(Somebody help me), while you reel me in, I don't want
this, I don't want this

This life gets shorter with every breath

With every breathe, consuming me, no more regrets, I
give it all

I'll give it all if you ask for-

Your eyes remain in my dreams, I'm so close but so far
away from you, take my hand with childlike faith, let
me show you how to love again

I now know conviction, breathing purity now, this phase
has passed, false love never lasts
