Ever since school days
I've walked a fool's way
With no love to find me
No dream to hide me
No kindness inside this heart with a stone's kiss
Just a short fall to the dawn, when you're walking on
dead man's feet
Down on Damnation street
You got nobody's love
Down on Damnation street
We got nobody's love
Walkin', Walkin', Walkin' Down on Damnation Street
Did you ever have a chance of finding someone who
needs you?
This world has got itself
And there's nothing for the likes of you and me
Without love
You'll try it, you'll buy it, you'll find it empty
As a stone's kiss
Just like your date with Jesus
When you're walking on dead man's feet
Down on Damnation street
You got nobody's love
Down on Damnation street
We got nobody's love
Walkin', Walkin', Walkin' Down
Better get on your knees
Humility please
Gotta pray to be free
From the slavery of freedom
Free to be nothing
21st Century here and now
Then gone like a thief in the night
Walkin' Damnation Street walking
Walkin' Damnation Street walking
Just goin' down, down, just going
Down, just goin' down, down, just going
Down down down on Damnation Street
