I can't help myself. One aim one try. One chance one
eye. So come on lets fly
Ooh desire. Tell you once. Won't tell you twice.
When the spirit moves the world we're gonna start a
fire. A fire.
Just one beat, just one heart
Just one beat, just one heart
I can't help myself. I can't help myself.
I can't help myself. Baby I can't help myself
One sound, one band, moving free in electric land
Never running for cover
Someday soon you'll see us next to you.
And we can dance like we are two.
That's true, like lovers. Like lovers
Just one beat, just one heart
Just one beat, just one heart
I can't help myself. I can't help myself.
I can't help myself. Baby I can't help myself
Nothing like this dream come true
Nothing like my time with you
You're a perfect friend of mine
A rock that still should stand all time
One aim, one try
One tear, one eye
Ooh desire.
One sound, one band, walkin' free in electric land
Gonna start a fire. I can't help myself.
Ooh we're gonna start a fire. We can't help ourselves.
Just one beat, just one heart
I can't help myself. I can't help myself.
I can't help myself. Baby I can't help myself
