Running away from  
But going nowhere fast

One step forward and two steps back  
Your excuses are bullshit

You should change your incompetence  
You should change your direction

This should come as no surprise  
You've put this off for far too long  
We all have choices that we know are wrong  
We only falter when we never pick one

Glad to see you're moving on now  
For yourself but then  
One step forward and two steps back  
Your excuses are bullshit

You should change your incompetence  
You should change your direction

This should come as no surprise  
You've put this off for far too long  
We all have choices that we know are wrong  
We only falter when we never pick one

Didn't mean to cross the line  
Didn't mean to waste your time  
Didn't mean to say goodbye

Say goodbye  
Say goodbye  
Say goodbye

This should come as no surprise  
You've put this off for far too long  
We all have choices that we know are wrong  
We only falter when we never pick one

You should change your incompetence

You should change your direction  
You should change your incompetence  
You should change your direction

We all falter  
We all falter  
We all falter  
We all  
We all  
We all  
We all falter
