Turn it on, Turn it on, Turn it on (Why, yes, I know you can)

Turn it on, Turn it on, Turn it on (Oh let me be a man)

Don't put the edge against the middle
They ain't said nothin' you know
Love me alot, not just a little
Come over here and let yourself go
I got a need for your kisses
Got a want just to hold your hand
Got it bad for you baby,
Don't ya know, I'm just a man.

Turn it on, Turn it on, Turn it on (Why, yes, I know you can)

Turn it on, Turn it on, Turn it on (Oh let me be a man)

I know that you've got a love life
Some dude gotta shot down on me(?)
You can make my darkness bright
Come on now girl, can't you see?
I got a need for your kisses
Got a want just to hold your hand
Got it bad for you baby, don't you know I'm just a man.

Turn it on, Turn it on, Turn it on (Why, yes, I know you can)

Turn it on, Turn it on, Turn it on (Oh let me be a man)

Turn it on, Turn it on, Turn it on (Why, yes, I know you can)

Turn it on, Turn it on, Turn it on (Oh let me be a man)
